Happy New Year!

Hope you all had a wonderful Christmas and fun celebrating the New Year. 2012 has already started off as being a busy one, which I love - we've got some great stuff lined up for you including fab offers and new jeans - watch this space.

As January comes around, we all begin to make New Year's resolutions (which we've all given up on come January 6th), and begin thinking of that old cliché 'New Year, New You.' But none of us really want to start that impossible diet or stop reading celebrity gossip magazines. So how about you get yourself a 'New You' with a little extra help...

No I'm not suggesting you race to the nearest cosmetic surgeons, how about trying some Wizard Jeans? They really do hold you in which works wonders for your body and your confidence.

My personal favourite style is the Zara Bootcut in Indigo - absolutely the most flattering style and colour available. If you don't believe me, why not start off your year keeping to your resolution and try a pair? Read below to see how you can sort out your wardrobe without emptying out your purse!

SALLY'S TOP TIPS

1 Bootcut jeans are simply heaven-sent. The Zara Indigo Bootcuts have our fab technology and also come in the most flattering colour - they're certainly a wardrobe staple and excellent for 'fat days.'

2 As these jeans lengthen your legs, whilst also creating a slim silhouette, they work especially well when worn with a pair of heels - you'll have never seen yourself with such long legs!

3 Thinking of taking up our generous offer this month? Of course you are! Make the most of the 'New You' feeling and grab a pair of jet black jeans in the Gina skinny or Sienna straight - they'll go with anything and make you look and feel great. Only trouble is you won't know which to wear first...
